Work Experience

Design & Decor [🔗](#)

May 2026 – Jun 2026

UX/UI Designer (Freelance)

- Redesigned the UX/UI of a home décor platform, improving product discovery and simplifying navigation across key browsing journeys.
- Restructured navigation and information architecture to create a more intuitive browsing experience and enhance content accessibility.

Forext Greens Energy [🔗](#)

Jan 2026 – Feb 2026

UX/UI Designer (Freelance)

- Designed the end-to-end UX/UI for a renewable energy company, creating web experiences for residential and commercial energy solutions, battery storage, and EV charging services.
- Defined the site's information architecture and responsive interface system from scratch, improving navigation, content discoverability, and overall usability.

Digital Dose

Sept 2025 – Dec 2025

UX/UI Designer Intern

Remote

- Contributed to the UX/UI of *PitStop*, a UAE-based automotive service platform, by designing admin dashboard interfaces that improved workflow usability and navigation consistency.
- Designed the UX/UI for *MatchMeDuo*, a compatibility-based travel platform, taking the product from user flows and wireframes to prototypes and high-fidelity designs.

Projects

Klozet [🔗](#)

- Designed a fashion e-commerce mobile application focused on improving product discoverability, intuitive navigation, and seamless shopping experiences.
- Created user flows, wireframes, and high-fidelity interfaces to streamline browsing and maintain visual consistency across the application.

Eventique [🔗](#)

- Designed a responsive event management landing page focused on improving event discovery and encouraging user inquiries.
- Structured content hierarchy and crafted a premium visual experience that guides users naturally from exploration to inquiry.
