Work Experience

Design & Decor [🔗](#)

May 2026 – Jun 2026

UX/UI Designer (Freelance)

- Redesigned the UX/UI of a home décor platform, improving product discovery and simplifying navigation across key browsing journeys.
- Restructured navigation and content organization through information architecture and interface design, creating a more intuitive and user-friendly experience.

Forext Greens Energy [🔗](#)

Jan 2026 – Feb 2026

UX/UI Designer (Freelance)

- Designed the end-to-end UX/UI for a renewable energy company, creating web experiences for residential and commercial energy solutions, battery storage, and EV charging services.
- Built the site's information architecture and interface system from scratch, improving navigation, content discoverability, and overall usability.

Digital Dose

Sept 2025 – Dec 2025

UX/UI Designer Intern

Remote

- Contributed to the UX/UI design of *Pitstop*, a UAE-based automotive service platform, by designing workflow-focused admin interfaces to improve operational usability and navigation clarity.
- Designed the UX/UI for *MatchMeDuo*, a travel platform connecting users through compatibility-based interactions, including user flows, wireframing, prototyping, and interaction design.

Projects

Klozet [🔗](#)

- Designed a fashion e-commerce mobile application focused on improving product discoverability, intuitive navigation, and overall shopping experience.
- Created user flows, wireframes, and high-fidelity prototypes to enhance the browsing experience, visual consistency, and seamless user interactions.

Eventique [🔗](#)

- Designed a responsive event management landing page to improve event discovery and encourage user inquiries.
- Applied visual hierarchy, content structure, and UI design principles to improve content discoverability and create a seamless journey from exploration to inquiry.
